Re: Prospectus for "sncc store" in Cambridge, Mass.

Although the Boston Friends of SNCC has raised funds over the past few years through special events, collections, art sales, etc., we have seen a need for a regular source of funds which would not be so susceptible to varying public opinion and would draw from sources that we have not previously tapped. Therefore, we are opening a small store in Cambridge which will donate all profits to SNCC. The store will sell products from the Poor Peoples Corporation, works done by local Boston artisans, toys and SNCC materials. The store's legal status is still not clear; it will either operate under the auspicies of another store or become a legal entity in itself. The store itself however, will from the beginning be a going concern in and of itself.

The store is located at 30 Brattle St, Harvard Square, Cambridge, Mass. It will be downstairs from a giftshop, the Ploughshare. The owner has agreed to let us use one of her display windows for our store; area approx. 20° x h0°. The area immediately available is rent free, however we may expand it if it becomes more profitable to do so and the rent would then be \$35.00 a month—this is not forseen until after Christmas. The owner of the store both up and downstairs has worked with the Boxton SNCC office in the past.

The following is a list of the items which will be sold in the sotre, keeping in mind that we will only sell those items which move quickly. The idea is first of course to make money and secondly to establish a place where Movement items are always available.

- 1. Poor People's Corporation: shoulder bags, pocket books, hats, hip pouches, belts, aprons, coin pouches, After the store has been operating for a while, we might send special orders for new products which would have a market in the Harvard Square area.
- 2. Local Artisans: some of their work can be sold on consignment; some of which will be donated. Clothing items--sewing done free, jewelry-silver and bronze, leather goods, hand woven rugs, ceramics and pottery, prints and paintings, refinished furniture and hand crafted lamps.
- 3. SNCC materials: Books-"Movement"; songbook; "SNCC, the New Abolitionists," Negro history books; records; posters; pins and pamphlets.
- 4. Other miscellaneous products. We have written to the ociety of Brothers in fifton, NY to inquire about their wooden toys.

There will be a few continuing expenses for the running of the store; the salary of the store manager being \$50,00 a week, we in the Boston SNCC office propose to pay the managers salary for the first two months and then if it appears the store will be a profitable adventure to have him put on SNCC salary. The store manager will be responsible for coordination of the store: publicity, stock, financial records, daily operation, etc. We are seeking the help of an accountant or business student to keep records, someone to do publicity and newspaper work, and store clertks. We see the managers job as keeping him out of the store a good part of the time looking for items to sell in it. We understand fully the necessity of exact records and monthly financial reports.

The following is a general estimation of what it will cost to get the store going:

through at market of more fell of , 50m after the , motion the state of the land of the contract of the contra
