

Dr. Shirley Green-Reese is a civil rights activist and pioneer and one of the 14 1963 Leesburg Stockade Girls who were held in a Stockade building in Lee County, Georgia for 60 days during the Civil Rights Movement in Americus, Georgia. She is aggressively advertising for a kidney donor. She is presently a patient with the Vanderbilt Transplant Department. If someone is interested in providing a kidney or ‘Gift of Life” and support for Dr. Shirley Reese, please contact her at 404-216-4578 or email: reese6363@yahoo.com. Her blood type is A or A+ or O. All medical expenses for the kidney donor are covered 100%. Reese has been traveling back and forth every 2-3 months from Americus, Georgia to Nashville, Tennessee for the last seven years which has been huge out-of-pocket expenses, in addition to hotel expenses. I would kindly appreciate any assistance and support toward my mission. Thank you very much & wishing you and family a festive and blessed New Year!
